

Minor Ailments: Drug Classes and Specified Drugs (Schedule 4 of O. Reg. 256/24)

Acne (mild): Skin & Mucous Membrane Agents

- Adapalene
- Azelaic acid
- Benzoyl peroxide
- Clindamycin
- Dapsone
- Erythromycin
- Glycolic acid
- Salicylic acid
- Tazarotene
- Tretinoin
- Trifarotene

Allergic rhinitis: Antihistamines

- Azelastine
- Bilastine
- Cetirizine
- Cyproheptadine
- Desloratadine
- Fexofenadine
- Loratadine
- Olopatadine
- Rupatadine

Allergic rhinitis: Corticosteroids

- Beclomethasone
- Budesonide
- Ciclesonide
- Fluticasone
- Mometasone
- Triamcinolone

Candidal stomatitis: Antifungals

- Nystatin

Conjunctivitis (bacterial, allergic or viral): Antiallergic Agents

- Antazoline
- Bepotastine
- Cromolyn sodium (Sodium cromoglycate)
- Ketotifen
- Lodoxamide
- Olopatadine
- Pheniramine

Conjunctivitis (bacterial, allergic or viral): Antibacterials

- Erythromycin
- Fusidic acid
- Gramicidin
- Polymyxin B
- Tobramycin
- Trimethoprim

Conjunctivitis (bacterial, allergic or viral): Vasoconstrictors

- Naphazoline
- Oxymetazoline
- Phenylephrine
- Tetrahydrozoline

Dermatitis (atopic/eczema, allergic or contact): Anti-inflammatory Agents

- Beclomethasone
- Betamethasone valerate
- Clobetasone
- Crisaborole
- Desonide
- Fluocinolone
- Hydrocortisone
- Prednicarbate
- Triamcinolone

Dermatitis (diaper): Antifungals

- Ciclopirox
- Clotrimazole
- Ketoconazole
- Miconazole
- Nystatin

Dermatitis (diaper): Anti-inflammatory Agents

- Desonide
- Hydrocortisone

Dysmenorrhea: Nonsteroidal Anti-inflammatory Agents

- Acetylsalicylic acid (ASA)
- Celecoxib
- Diclofenac
- Flurbiprofen
- Ibuprofen
- Ketoprofen
- Mefenamic acid
- Naproxen

Gastroesophageal reflux disease (GERD): Antacids and Adsorbents

- Alginate acid
- Aluminum hydroxide
- Calcium carbonate
- Magnesium salts

Gastroesophageal reflux disease (GERD): Histamine H₂-Antagonists

- Cimetidine
- Famotidine
- Nizatidine
- Ranitidine

Gastroesophageal reflux disease (GERD): Proton-Pump Inhibitors

- Dexlansoprazole
- Esomeprazole
- Lansoprazole
- Omeprazole
- Pantoprazole
- Rabeprazole

Hemorrhoids: Skin and Mucous Membrane Agents

- Dibucaine (Cinchocaine)
- Esculin (Aesculin)
- Framycetin (Neomycin B)
- Hydrocortisone
- Phenylephrine
- Pramoxine
- Zinc sulfate

Herpes labialis: Anti-inflammatory Agents

- Hydrocortisone

Herpes labialis: Antivirals

- Acyclovir
- Docosanol
- Famciclovir
- Valacyclovir

Impetigo: Antibacterials

- Bacitracin
- Fusidic acid (Sodium fusidate)
- Gramicidin
- Mupirocin
- Ozenoxacin
- Polymyxin B

Insect bites and urticaria: Antihistamines

- Bilastine
- Cetirizine
- Chlorpheniramine
- Cyproheptadine
- Desloratadine
- Diphenhydramine
- Fexofenadine
- Hydroxyzine
- Loratadine
- Rupatadine

Insect bites and urticaria: Antipruritics and Anti-inflammatory Agents

- Benzocaine
- Calamine
- Camphor
- Desonide
- Hydrocortisone
- Lidocaine
- Menthol
- Pramoxine
- Zinc oxide

Musculoskeletal sprains and strains: Analgesics

- Acetaminophen

Musculoskeletal sprains and strains: Nonsteroidal Anti-inflammatory Agents

- Acetylsalicylic acid (ASA)
- Celecoxib
- Diclofenac
- Flurbiprofen
- Ibuprofen
- Ketoprofen
- Mefenamic acid
- Naproxen

Nausea and vomiting of pregnancy: Antiemetics and Antinauseants

- Dimenhydrinate
- Diphenhydramine
- Doxylamine
- Promethazine
- Pyridoxine

Oral aphthae: Anti-inflammatory Agents

- Triamcinolone

Pinworms/Threadworms: Anthelmintics

- Mebendazole
- Pyrantel pamoate

Tick bites, post-exposure prophylaxis to prevent Lyme disease: Antibacterials

- Doxycycline

Urinary tract infection (uncomplicated): Urinary Anti-infectives

- Fosfomycin
- Nitrofurantoin
- Sulfamethoxazole
- Trimethoprim

Vulvovaginal candidiasis: Antifungals

- Clotrimazole
- Fluconazole
- Miconazole
- Terconazole
